SETTLEMENTS

The purpose of this section is to identify the model of settlement employed, the relationship between cash and securities, and the basis on which participants meet their obligations.

48. The Committee on Payment and Settlement Systems of the Bank for International Settlements (BIS) has identified three common structural approaches or models for linking delivery and payment in a securities settlement system. Please indicate which model your procedures most closely resemble (Please refer to details on the models within the "Help" section located below this question): (Choose all that apply.)

- Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. (please answer 48a) Not applicable
 Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. (please answer 48a) Other (please answer 48b)
 Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. (please answer 48a)

48a. Please briefly describe your settlement process, including how your settlement procedures may vary from the model chosen above (and as described below in the Help section)?

On T+0, securities sold are put in 'pending' status once execution occurs while turnaround trades are allowed. Seller is still the legal owner of securities under 'Pending' status and is eligible for all benefits. On T+2, upon completion of cash settlement, securities sold are removed from 'pending' status and deducted from seller balance and added to buyer's balance. Unalleged trades can be rejected by custodians to executing broker for settlement.

Question 48 Help:

Model 1 - Gross, Simultaneous Settlements of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds simultaneously on a trade-by-trade (gross) basis, with final (irrevocable and unconditional) transfer of securities from the seller to the buyer (delivery) occurring at the same time as final transfer of funds from the buyer to the seller (payment). The securities settlement system maintains securities accounts and funds accounts for participants. Transfer of securities and cash are made by bookentry.

Model 2 - Gross Settlements of Securities Transfers Followed by Net Settlement of Funds Transfers. These systems settle securities transfer instructions on a trade-for-trade (gross) basis, with final transfer of securities from the seller to the buyer (delivery) occurring throughout the processing cycle, but settle funds transfer instruction on a net basis, with final transfer of funds from the buyer to the seller (payment) occurring at the end of the processing cycle.

The securities settlement system maintains securities accounts for participants, but funds accounts are usually held by another entity (often a commercial bank or the central bank). Securities are transferred by book-entry, such transfer being final at the instant the entries are made on the securities settlement system's books. The corresponding funds transfers are irrevocable, but not final. During the processing cycle, the system calculates running balances of funds debits and credits, the balance being settled at the end of the processing cycle when the net

debit and net credit positions are posted on the books of the commercial bank or central bank that maintains the funds accounts. Settlement of funds accounts may occur once a day or several times a day.

Model 3 - Simultaneous Net Settlement of Securities and Funds Transfers. These systems settle transfer instructions for both securities and funds on a net basis, with final transfer of both occurring at the end of the processing cycle. Settlement may occur once a day or several times a day. The securities settlement system maintains securities accounts for participants. Funds accounts may be maintained by another entity, either a commercial bank or the central bank.

During a processing cycle, running balances of debits and credits to funds and securities accounts are calculated. All funds and securities transfers are provisional until the end of the processing cycle, at which time book-entry transfer of securities take place. If and only if all participants have sufficient balances of funds and securities, final transfers of the net securities balances and net funds balances are executed.

49. Are the cash and security movements simultaneous?

- Yes (please answer 52e)
- No (please answer 52g)
- Other (please answer 52l)

52i. If the securities held with the depository are recorded by book-entry at the registrar, what are the control features at the registrar for transfer of registrar positions to and from the depository (e.g., authentication procedures, reconciliation, confirmation of position at registrar)? Please describe:

52k. If other, please explain:

For delisted securities, the issuer can either continue to hold the delisted securities in the depository or withdraw the securities and hold as physical certificates. Where securities are listed, there is no option to hold physical certificates.

52l. If other, please explain:

Dubai CSD maintains the register for the registrar.

HANDLING OF SECURITIES OUTSIDE THE DEPOSITORY ENVIRONMENT

The purpose of this section is to consider the process (and any risk inherent within such a process) that involves the safekeeping of client assets while they are being removed from a depository and being lodged into a depository.

57. How are eligible securities lodged (that is, placed) in the depository system? (Choose all that apply.)

- A registered certificate in the name of the depository is delivered to the depository.
- A participant delivers the security with a valid transfer deed or stock power or other transfer document to the depository which then effects registration.
- A registrar re-registers the security in the name of the depository.
- Other (please answer 57a)
- Not applicable

57a. Please describe:

Securities are dematerialised in Dubai CSD. Upon the successful IPO, the listed company will send files containing details of shareholdings. All subsequent transfers and trade settlements will be conducted through the debiting and crediting of securities in the depository system.

58. When are securities lodged into the depository reflected in a participant's depository account? (Choose all that apply.)

- Securities are reflected in the participant depository account immediately upon delivery to the depository.
- Securities are re-registered prior to being reflected in the participant's depository account.
- Other (please answer 58a)
- Not applicable

58a. Please explain:

Securities balances are credited to the respective investor accounts as instructed by the issuer pursuant to a listing, corporate actions or when investor's demat physical certificates.

- Other (please answer 60c)

60a. During the process of lodging securities into the depository, can the securities: Be settled?

- Yes
- No (please answer 60d)
- Not applicable
- Other (please answer 60d)

60b. During the process of lodging securities into the depository, can the securities: Have ownership transferred?

- Yes
- No (please answer 60e)
- Not applicable
- Other (please answer 60e)

60c. If they cannot be traded, or if you answered other, please explain:

No trading, settlement can be affected until the deposited securities are actually credited to the investor accounts by the depository. Where securities are credited in relation to an IPO, the said securities can only be traded from the date of listing.

60d. If they cannot be settled, or if you answered other, please explain:

No trading, settlement can be affected until securities are given good value. Where securities are credited in relation to an IPO, the said securities can only be traded once listed.

60e. If ownership cannot be transferred, or if you answered other, please explain:

No transfers can be affected until securities are part of depository register and balances reflected in the account.

61. Are securities immediately available for delivery upon transfer to the depository?

- Yes
- No (please answer 61a)
- Not applicable
- Other (please answer 61d)

62. Please describe briefly the arrangements/procedures/facilities you maintain to ensure that eligible securities held at the depository are handled at least as efficiently as compared to securities held outside the depository, particularly in relation to income, corporate actions and proxy services.

Securities of all listed companies are fully dematerialized within the depository system. The depository is managing the full share book of all securities in the depository and as such, no

securities are held outside the depository. All securities type of corporate actions are handled by Dubai CSD electronically; there is no need to physically mail securities-type of corporate action to shareholders. Risk of corporate action certificates being lost in mail is totally removed. Sharebook is updated on a realtime basis. In addition, payment of cash dividends is now also centralized and made by the depository to the bank accounts of all eligible shareholders. No physical cheques issued.

63. What transfer process steps are involved when eligible securities are withdrawn from the depository for safekeeping? (Choose one.)

- Securities are re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and re-registered into the name of the beneficial owner or a nominee.
- Securities are re-certificated and delivered as bearer instruments.
- Securities are transferred as is any physical delivery in the market.
- Other (please answer 63a)
- Not applicable.

63a. Please specify:

For de-listings, securities may be removed from the depository and details of shareholders' register will be provided to the issuer or share registrar of the listed company unless the issuer elects to still use the services of Dubai CSD as a depository for unlisted securities.

64. How long does it usually take to remove securities from the depository? (Choose one.)

- 1 to 2 days
- 3 days to 1 week
- 2 to 4 weeks
- More than 4 weeks (please answer 64a)

In addition, the instrument code will also be removed from the trading system to prevent trading.

65c. Be settled?

- No (please answer 65d)
- Not applicable
- Yes
- Other (please answer 65d)

65d. Please explain:

There is pre-validation of securities balances during execution of trades. If there are insufficient securities balances for trade execution, the order will not be executed and therefore there will be no trades for settlement. Once trades have been executed, securities balances are earmarked and earmarked securities balances for trade settlement cannot be transferred or removed from the depository.

65e. Have ownership transferred?

- No (please answer 65f)
- Not applicable
- Yes
- Other (please answer 65f)

65f. Please explain:

Ownership transfer is based on available owned securities balances. If securities are being removed from the depository, the available owned balance will be reduced by the quantity of securities to be removed from the depository.

Dubai CSD is 100% owned by Dubai Central Clearing and Depository Holding LLC which in turn is a 100% subsidiary company of Dubai Financial Market PJSC (DFM), a public listed stock exchange operator. The CSD functions of Dubai CSD was previously performed by the Clearing, Settlement and Depository Division (CSD Division) of DFM for which a separate AGC Questionnaire is available. To enhance asset protection and comply with new regulatory requirements requiring a CSD to be a separate legal entity, Dubai CSD was setup to takeover the depository operations of the CSD Division and to comply with new regulatory requirements concerning central securities depository activity.

Dubai Financial Market PJSC (DFM), and is an establishment of, and fully backed by, the Government of Dubai. DFM commenced operations on 26 March 2000. DFM became a Public Joint Stock Company on 2006. It is managed by a CEO reporting to a board of directors chaired by DFM's Managing Director & CEO. DFM is regulated by the Securities and Commodities Authority (SCA), a federal securities and commodities regulatory body. Since 2001, DFM, including the depository function has been an ISO 9001:2015 accredited organization on a continuing basis. DFM has an ISO 27001 certification for information security.
